On behalf of organiser everybody warmly welcomed Nyír1 Baja 2021, FIA CEZ Cross-Country Rally event !

Some general informations

- Under the Hungarian Convention on the Road Traffic using the headlights are obligatory during the special stages too.
- Bulletin No.1 was issued, please read them carefully.

Important safety announcements:

We remind you that the SS roads are not exclusively reserved to competitors, although we have taken many works and great care in safety:

- we put **bands** and **signs** for competitors to keep them safe,
- in the road book you find several small „**FLASH**” signs and **radio post numbers** ---where safety marshalls present and on **staturday there is a Rescue** allocated on the selective section, **marked** in the road book, in these points you can ask for help,
- the dangerous parts of the track marked by **caution signals** („!") and sometimes with **RED frame** in the road book and at the trackside too.
- In case of leaving the track you must report as soon as possible to the headquarter or to the CRO via phone or via marshalls positioned by the track, but any case obligatory to inform the HQ !

On Friday 2021.07.09. **Page 7 Box 31.** There is a fire **FIRE HYDRANT marked with !** located at the side of the track. Please pass this sign with maximum attention and great care.

We remind the competitors that is forbidden and dangerous to **cut** or **shorten** the rally route, especially on cultivated lands and forrest sections where are many **Stumps** located on the ground. The rally road must be completed **as the road book boxes shows.**

The route is changing, however **diches with water** and **bending branches** have to be expected during the forrest sections. Some of the **diches** are covered with **grass**.

On top of that, **wildlife is also quite vigorous, deer, rabbits, pheasant** could be expected on the route.

National Meteorologic Service ordered a heat alarm till Friday night. I ask everyone to pay special attention to the increased fluid intake.
